Historical Context

The sonnets were written during a time when poetry was highly esteemed in England. The late 1500s and early 1600s marked the height of the English Renaissance, a period characterized by a resurgence of interest in classical literature, art, and humanist philosophy. Shakespeare's sonnets were likely written between 1592 and 1598, a time when London was a bustling hub of cultural activity.

During this period, the sonnet form was popularized by poets such as Sir Thomas Wyatt and Henry Howard, Earl of Surrey. However, it was Shakespeare who elevated the form, employing it to explore complex emotional landscapes. His sonnets were first published in 1609, though many had circulated in manuscript form prior to that publication.
