Overview of the 1992 EZGO Marathon

The 1992 EZGO Marathon is a significant model in the EZGO lineup, known for its rugged design and reliable performance. This model is particularly popular among golf course operators and private owners due to its ease of use and ability to handle various terrains.

Key Features

- **Engine Options:** The 1992 Marathon is available in both gasoline and electric models. The gasoline version typically features a 2-cycle engine, while the electric model comes with a robust battery system.
- **Durability:** Built with heavy-duty materials, the Marathon is designed to withstand the rigors of daily use, whether on the golf course or in other settings.
- **Comfort:** The seating arrangement is designed for comfort, often accommodating two passengers with ample legroom.
- **Customizability:** Many owners opt to customize their carts with accessories such as windshields, cargo boxes, or upgraded seats.

Operation of the 1992 EZGO Marathon

Understanding how to operate your 1992 EZGO Marathon is crucial for ensuring safety and maximizing performance.

Starting the Cart

1. **Gasoline Model:**
 - Ensure the cart is in neutral.
 - Turn the key to the "on" position.
 - Press the accelerator gently while pulling the choke lever (if applicable)

to start the engine.

2. Electric Model:

- Ensure the key is in the "on" position.
- Depress the accelerator pedal gently to engage the motor.

Driving the Cart

- Acceleration: Apply gentle pressure to the accelerator pedal for forward movement.
- Braking: Release the accelerator to decelerate. Use the brake pedal to stop the cart.
- Turning: Use the steering wheel to navigate turns. Always signal your intent to turn, especially on crowded courses.
