Themes and Motifs

Evelyn Waugh's "A Handful of Dust" explores several interwoven themes that reflect the complexities of human existence and societal change. Below are some of the prominent themes:

Disillusionment

The theme of disillusionment permeates the novel, particularly through Tony's experiences. Initially, he is a seemingly content man, but as the story progresses, his idealistic views are shattered. The disintegration of his marriage and the loss of his ancestral home symbolize the broader disillusionment of the British aristocracy during the interwar period.

The Decline of the British Aristocracy

Waugh critiques the decline of the British aristocracy, showcasing the hollow nature of their existence. Brenda's pursuit of wealth and status reflects the changing values of society, where traditional roles are upended. The contrast between Tony's values and those of the new social elite highlights the tensions between old and new.

The Search for Meaning

The estate symbolizes Tony's identity and values, while the modern world, represented by characters like Brenda and Beaver, signifies the encroaching chaos of contemporary life.
