1. Industrialization and Economic Change

The post-Reconstruction era witnessed an unprecedented industrial boom. Major factors contributing to this growth included:

1. **Technological Advancements:** Innovations in technology, such as the telegraph, telephone, and railroads, revolutionized communication and transportation.
2. **Natural Resources:** The abundance of natural resources, including coal, oil, and iron, fueled industrial expansion.
3. **Labor Force:** A large influx of immigrants provided a workforce that was

essential for industrial operations.

This period also saw the emergence of powerful industrialists and entrepreneurs, such as Andrew Carnegie and John D. Rockefeller, who dominated their respective industries. The consolidation of businesses led to the rise of monopolies and prompted calls for regulatory measures, culminating in the establishment of antitrust laws in the early 20th century.

2. Social Movements and Reform

As the nation industrialized, various social movements arose in response to the challenges faced by workers and marginalized groups. Key movements included:

- **Labor Movement:** Workers sought better wages, working conditions, and the right to unionize. Major strikes, such as the Pullman Strike of 1894, highlighted the struggle between labor and management.

- **Progressive Movement:** This movement aimed to address social issues caused by industrialization, including poverty, corruption, and inequality. Prominent figures included Theodore Roosevelt and Jane Addams.

These social movements were instrumental in shaping public policy and expanding the role of government in addressing societal issues.

3. International Relations and Military Conflicts

The United States transitioned from an isolationist stance to a more interventionist role in world affairs during this period. Notable conflicts include:

1. **Spanish-American War (1898):** This brief conflict resulted in the U.S. acquiring territories such as Puerto Rico, Guam, and the Philippines, marking the beginning of American imperialism.

The aftermath of these conflicts saw the U.S. engaged in the Cold War, a prolonged period of political tension with the Soviet Union that shaped American foreign policy for decades.

4. Civil Rights and Social Justice
