Step-by-Step Instructions for Making Apple Crumble

Follow these simple steps to create a delicious apple crumble inspired by James Martin.

Step 1: Prepare the Apples

1. Choose the Right Apples: Select cooking apples, as they break down well during cooking. Bramley apples are the most commonly used, but you can also experiment with Granny Smith or Honeycrisp for a different flavor profile.
2. Peel, Core, and Chop: Peel the apples, remove the cores, and chop them into small chunks.
3. Mix the Filling: In a large bowl, combine the chopped apples with sugar, cinnamon, lemon juice, and a pinch of salt. Toss the mixture to ensure the apples are evenly coated.
4. Transfer to Baking Dish: Pour the apple mixture into a greased baking dish, spreading it out evenly.

Step 2: Create the Crumble Topping

1. Combine Dry Ingredients: In a separate bowl, mix the plain flour, brown sugar, and oats (if using). Add a pinch of salt to enhance the flavor.
2. Incorporate Butter: Add the chilled, diced butter to the dry ingredients. Using your fingertips, rub the butter into the mixture until it resembles coarse breadcrumbs. It's essential not to overwork the mixture to maintain a light and crumbly texture.
3. Top the Apples: Evenly sprinkle the crumble topping over the prepared apple filling, ensuring it covers the apples completely.

Step 3: Bake the Crumble

1. Preheat the Oven: Preheat your oven to 180°C (350°F).
2. Bake: Place the baking dish in the preheated oven and bake for approximately 35-40 minutes, or until the topping is golden brown and the apples are bubbling.
3. Cool Slightly: Once done, remove the crumble from the oven and let it cool slightly before serving. This allows the juices to settle, making it easier to serve.
