Maintenance Tips for the Bad Boy ZT Elite

To ensure your Bad Boy ZT Elite continues to perform at its best, regular maintenance is essential. Here are some key maintenance tips:

1. Regular Oil Changes

Changing the oil regularly is critical for engine health. Follow the manufacturer's guidelines regarding oil change intervals and always use the recommended oil type.

2. Check and Replace Air Filters

Keep an eye on the air filter and replace it as needed. A clean air filter ensures optimal engine performance and fuel efficiency.

4. Clean the Deck

After each use, clean the mower deck to prevent grass build-up. This not only improves cutting performance but also prevents rust and corrosion.

5. Battery Maintenance

If your model has a battery, ensure it's charged and connections are clean. A well-maintained battery extends the life of your mower.
