Overview of the Setting and Premise

The world in Birthmarked is a stark contrast between the Enclave, a walled city that represents safety and privilege, and the Outside, where the less fortunate struggle to survive. The Enclave has strict regulations regarding reproduction and childbearing, with the ruling class controlling who is allowed to have children. The story is set in a time when the population is dwindling due to environmental catastrophes, leading to stringent measures to ensure that only the "best" genes are passed on.

As a midwife, Gaia is responsible for delivering babies in the Outside and is also tasked with "marking" them for the Enclave. This marking system symbolizes the harsh realities of a society that places value on individuals based on their lineage and perceived worth. The narrative delves into Gaia's internal conflict as she grapples with her responsibilities and the injustices of the system she is part of.
