Troubleshooting Common Issues

Even the best appliances may experience problems. Here are some common issues and troubleshooting tips based on the manual:

Washer Won't Start

- Check Power Supply: Ensure the washer is plugged in and the outlet is functional.
- Door Lock: Make sure the door is closed properly; the washer will not start if the door is not securely latched.

Water Not Filling

- Inspect Hoses: Ensure water supply hoses are not kinked or blocked.
- Water Supply: Check that the water supply valves are turned on.

Excessive Vibration or Noise

- Level the Washer: Make sure the washer is level and stable.
- Load Distribution: Ensure that the load is evenly distributed within the drum.

Unpleasant Odors or Mildew

- Regular Cleaning: Run a cleaning cycle using washer cleaner or

vinegar to eliminate odors and mildew.

- **Leave Door Open:** After use, leave the door slightly ajar to allow airflow and prevent moisture buildup.

Maintenance Guidelines

Regular maintenance is key to prolonging the life of the Bosch Nexxt 500 Series Washer. The manual provides several maintenance tips:

- **Clean the Filter:** Regularly check and clean the lint filter to prevent clogs.
- **Inspect Hoses:** Periodically check hoses for leaks or signs of wear.
- **Run Cleaning Cycles:** Use a washer cleaner or run a hot water cycle with vinegar monthly to keep the drum fresh.
- **Check Seals:** Inspect door seals for any wear or debris that could lead to leaks.
