Origins of Carols

- Early Beginnings: The term "carol" is derived from the French word "carole," which referred to a circle dance accompanied by singing. The earliest carols were likely secular in nature, celebrating the winter solstice.
- Religious Transformation: By the 12th century, carols began to take on a more religious tone, focusing on the Nativity of Jesus. This shift was partly due to the need for music in church services and the desire to educate the congregation about biblical stories.

Evolution Through the Ages

- Renaissance and Baroque Periods: During these times, carols became more structured, and notable composers began to write music specifically for Christmas celebrations.
- 19th Century Revival: The 19th century saw a resurgence in interest in traditional Christmas carols, spurred by publications that compiled lyrics and melodies. This era produced many of the carols we still sing today.
