Understanding Christopher Columbus

A Brief Biography

Christopher Columbus was an Italian explorer born in 1451 in Genoa, Italy. He is best known for his four transatlantic voyages, which led to the European awareness of the American continents.

Columbus's expeditions were sponsored by King Ferdinand and Queen Isabella of Spain, who were eager to expand their territories and influence.

- First Voyage (1492-1493): Columbus set sail with three ships—Nina, Pinta, and Santa Maria—and reached the Bahamas, mistakenly believing he had found a new route to Asia.
- Second Voyage (1493-1496): Columbus returned to the Caribbean, establishing a settlement on Hispaniola.
- Third Voyage (1498-1500): He reached the South American mainland for the first time.
- Fourth Voyage (1502-1504): Columbus explored parts of Central America and the Caribbean in search of a passage to Asia.

Columbus died in 1506, still convinced that he had discovered a new route to Asia rather than a new
