Liquid Requirements

Most recipes require a minimum amount of liquid to create steam and pressure. Typically, you need at least 1 to 2 cups of liquid.

Cooking Times

Cooking times vary depending on the type of food. Here’s a general guideline:

- Vegetables: 2 to 10 minutes, depending on the type (e.g., carrots take longer than spinach).
- Rice: 4 to 10 minutes, depending on the variety.
- Meats: 10 to 60 minutes, depending on the cut and whether it’s fresh or frozen.

Natural vs. Quick Release

- Natural Release: Allowing pressure to decrease naturally over time, which is recommended for foods that expand (e.g., grains).
- Quick Release: Manually releasing pressure by turning the valve, suitable for delicate foods (e.g., vegetables).

To ensure your Cuisinart Instant Pot remains in excellent condition, follow these maintenance tips:

Cleaning the Instant Pot

- Inner Pot: Wash with warm, soapy water or place it in the dishwasher.
