Foundation and Early Years (1960-1976)

Despite a rocky start, the Broncos began to find their footing in the AFL, showcasing a blend of offensive talent and defensive grit.

Joining the NFL and the Orange Crush Era (1977-1988)

In 1970, the AFL-NFL merger brought the Denver Broncos into the National Football League (NFL). This transition marked a turning point for the franchise.

The 1977 Season

The 1977 season was pivotal for the Broncos. Under the leadership of head coach John Ralston and the explosive play of quarterback Craig Morton, the team reached its first Super Bowl (Super Bowl XII). Although they were defeated by the Dallas Cowboys, this achievement laid the groundwork for future success.

The Orange Crush Defense

During the late 1970s and early 1980s, the Broncos developed one of the most formidable defenses in NFL history, known as the "Orange Crush." Key players included:

- Randy Gradishar
- Tom Jackson
- Louie Wright

This defense was instrumental in leading the Broncos to the Super Bowl again in 1986, where they faced the New York Giants. The Broncos lost the game, but the "Orange Crush" era solidified their identity as a competitive franchise.

The John Elway Era (1983–1998)
